# Press Release

## Vantage Point Bank Ranked Third in the Nation by American Bankers Association

Coast to Coast the ABA Assessed Commercial Banks, Thrifts, and Bank Holding Companies in Four Categories and Found "A Patch of Blue Amid the Storm Clouds".

Fort Washington, PA, July 1, 2010: In the June 2010 issue of the American Bankers Association's ABA Banking Journal, the ABA revealed the results of their analysis of bank performance in 2009. Among the "bright spots", Vantage Point Bank, a local community bank and newcomer on the block, ranked third in profitability for banks with assets under \$100 million with a return on average equity of 20.08% in 2009. Reporter Vanessa Mambrino noted "...it is still possible to achieve growth in tough times".

Established in December 2007, Vantage Point Bank's mission is to deliver world-class financial services designed to specifically address the needs of small businesses and families throughout the greater Philadelphia area. CEO Walt Tillman stated, "Vantage Point Bank's vision is to become the fastest growing, most profitable bank in Pennsylvania, and to be highly regarded for our rock-solid balance sheet, excellent product delivery and world-class customer service."

President David Bezar said, "I believe we are on our way to becoming the model for community banks in our region. We have all of the services of the banking behemoths but we are much more nimble. We are a community bank with a big bank ability. We don't want to be small; we want to be big in the lives of the people we touch."

Ms. Mambrino also noted, "There were opportunities for healthy banks to take advantage of openings left by wounded or distracted competitors." Vantage Point Bank believes that it is well positioned to build market share throughout the greater Philadelphia region and grow the franchise during 2010 and beyond.
